13 November 1971

MEMORANDUM FOR: Mr. Edward Mulcahy
Deputy Director for Eastern
African Affairs
Department of State

SUBJECT : The Rhodesia/Zambia Problem

Attached are advance copies of two memoranda which I feel sure you will find of interest in connection with some of the problems posed by Rhodesia's recent unilateral declaration of independence and the reactions thereto. One is on the importance of Zambia copper; the other is on the economic divisions of the "Zambia Rescue" question. I am also attaching some carbon copies of some additional data that Mike McDonald asked me to include.
